

Advanced Four Pillars of Destiny Workshop by Jerry King

The Australian Chapter of the International Feng Shui Association, is proud to introduce International practitioner and teacher, Jerry King, to the Feng Shui community at the 2010 Feng Shui Masters Convention in Melbourne, to be held on 25th & 26th September 2010.

Jerry will be presenting Feng Shui and Four Pillars topics at both days of the convention, including Eight Mansions and the importance of Cosmic Flow in the Four Pillars of Destiny.

Jerry King, International Four Pillars Expert

Jerry King is an international Feng Shui and Four Pillars practitioner and teacher, based in Vancouver Canada. Jerry travels extensively, consulting globally and obtaining research data and verifying theories of cosmic flow in the Four Pillars of Destiny. Jerry is a dynamic and highly respected speaker, and was invited to speak about the Four Pillars of Destiny at the 2010 Vancouver Winter Olympic Games. Jerry provides his expert commentary on Feng Shui as a columnist in Canada.

Jerry has generously agreed to present a **Post Convention Workshop**, to be held at the Melbourne campus of the Australian College of Environmental Studies on 27th, 28th and 29th September 2010. This fabulous event is exclusive to IFSA Australia convention delegates.

Workshop Description:

The objective of the three day workshop is to provide an in-depth knowledge of cosmic flow with the four pillars and how to classify a chart. A holistic picture of the four pillars will be looked at to identify cosmic flow, rather than counting symbols, elements or stars. After a chart has been classified, how can Feng Shui consultants help their clients benefit from good cycles? What advice can be given to those who are in an inauspicious cycle? Controversial topics will be discussed in the workshop.

Prerequisites:

A thorough understanding of Five Element theory and the ten Heavenly Stems and twelve Earthly Branches is imperative prior to attending this workshop. Participants attending the workshop will benefit even more by knowing the branch and stem combinations.
